

Project 1

Due Sep 13, 2019 by 11:59pm **Points** 100 **Submitting** a text entry box or a file upload
File Types txt **Available** after Sep 7, 2019 at 1am

Project 1 is an extension from Project 0. In this project, you are asked to

- Make one of the letters from Project 0 (or create a new one) as the START button.
- Once the START button is clicked, the game should start. ALL other objects should also start moving.
- You can modify the design from Project 0 if needed to make it more interesting.
- The objective of your game is up to you. That is, you can make it an animation, a simple shooting game, or a dodging game. Be creative.
- Also include necessary instructions before the game starts.

Please upload the code of your program that you created as a text file (*.txt) unto canvas when you are finished.

Grading of this exercise will be based on the following:

- . Artistic and creative effort: 30%
- . Documentation: 10%
- . Completeness: 60%

If your program has syntax errors - the grade will be 0. This will be true for all future projects.

You may discuss among yourselves for this exercise. However, everyone must write his/her own program. You are allowed to exchange ideas, but NO PROGRAM SEGMENTS, PROCEDURES, FUNCTIONS MAY BE EXCHANGED OR COPIED from any source.
